

SALES ENGINEER

At AWI our focus is granular media filter optimization. For 30 years we have been providing technical expertise, products and services to improve the water filtration process in industrial and municipal water treatment plants. We are a small, dynamic privately-owned company that is active in North America and some International markets.

We are seeking a recent graduate to fill the position of SALES ENGINEER. Job entails developing rapport with engineering firms, sales representatives and water plant owners to sell our proprietary filter components throughout the United States. Travel for business will be required.

If you are an enthusiastic and qualified candidate please submit a resume to tadb@awifilter.com or fax to **(801) 566-1722**. Salary is commensurate with experience.
